ProStor Partners with FedTek to Bring ProStor InfiniVault to Government Market

Small woman-owned business provides cost-effective solution for data preservation

Montgomery, AL. – Aug. 25, 2008 – ProStor Systems, the leading developer of [removable disk](#) storage systems, today announced that the [ProStor InfiniVault™](#) product family is now available to government agencies through FedTek, a federal government reseller. FedTek specializes in providing enterprise-wide storage management solutions and services to federal government agencies and departments.

“The ProStor InfiniVault product family fits well into our solutions portfolio because it provides government customers with the performance advantages of online storage and the economics of offline storage,” said Scott Deen, president of FedTek. “For half the cost and a quarter of the power consumption of other storage systems, the ProStor InfiniVault allows government users to reduce storage costs, shrink backups and safely preserve data on secure removable disk media for 30 years or more.”

ProStor InfiniVault is an intelligent data preservation system that retains the digital assets of government organizations and civilian businesses-- for as long as is necessary -- at a very low cost and power profile. Utilizing RDX® removable disk technology, ProStor InfiniVault provides data protection and preservation with unlimited scalability and is available in three configurations.

“We are pleased to partner with FedTek, a reseller with a reputation for providing quality IT solutions to the federal market,” said Bill Lewis, vice president of worldwide sales at ProStor Systems. “We appreciate FedTek’s operational experience in multi-vendor environments and

their understanding of the critical need to offer government customers best-in-class data protection solutions, such as ProStor InfiniVault.”

ProStor InfiniVault provides a complete audit trail for every file to create a chain of custody report, while content addressable storage functionality verifies all content to ensure the integrity of the data. The combination of flexible retention management, WORM throughout the system for unalterable files, data encryption to meet privacy requirements, and secure file deletion makes the ProStor InfiniVault an easy-to-use, automated and power-friendly solution for most data preservation applications. Privacy is assured with ProStor InfiniVault managing all encryption keys associated with each individual file.

Both FedTek and ProStor Systems will be exhibiting at the Air Force Information Technology Conference ([AFITC](#)) from Aug. 24 to Aug. 28, 2008, in Montgomery, Al. Please visit FedTek in Booth # 309 and ProStor Systems in Booth #206.

About FedTek

FedTek is a small woman-owned business and federal reseller. FedTek specializes in providing enterprise wide storage management solutions and offers a wide array of information technology products and services ranging from infrastructure management software to mass storage devices. About ProStor Systems

[ProStor Systems](#) is the leader in enterprise-class removable disk storage systems for backup and data preservation providing the benefits of online storage with the economics of offline storage. [The ProStor InfiniVault](#) data preservation simplifies how IT professionals in small and mid-tier companies provide users with low-cost, long-term data availability to meet even the most stringent governance, regulatory and legal retention requirements.

[ProStor InfiniVault](#) won a bronze award as Product of the Year in the backup and disaster recovery category by Searchstorage.com. ProStor Systems is the developer of RDX[®] technology, the de facto standard in removable disk. Available worldwide through a variety of licensees and OEMs, including HP, Fujitsu, Imation, NEC, Siemens and Tandberg, RDX solutions provide the performance and reliability of disk while exceeding the removability and long-term retention benefits of tape. For more information about ProStor Systems or InfiniVault, visit <http://www.prostorsystems.com> or contact the company at <mailto:info@prostorsystems.com> or 303-565-3100.
